

## **Guidelines for authorship**

The Faculty of Pharmaceutical Sciences supports the recommendations put forward by the *International Committee of Medical Journal Editors* (ICMJE). ICMJE developed these recommendations to help authors to create and distribute accurate, clear, reproducible, and unbiased journal articles.

The recommendations can be found at <http://www.icmje.org/recommendations/browse/roles-and-responsibilities/defining-the-role-of-authors-and-contributors.html>.

While stressing the importance of these guidelines, the Faculty of Pharmaceutical Sciences acknowledges that certain situations may arise in which not all of these recommendations can be followed.

## **Who to contact in case of questions and complaints concerning authorship**

The first point of contact for questions about authorship or for complaints in case of a dispute concerning authorship, is the chairman of the FCWO.

If there is a conflict of interest, the permanent or replacement Faculty ombudsperson for doctoral students can be contacted.
